## Good stocking begins with Stock Check

Whether you run a deli, farm shop, food hall or small shop, as the owner of an independent food retail store, you will always be thinking hard about how to divert footfall away from the local supermarket and towards your own doors. The way in which you choose to do this may depend on your location and the demographic of your customers, but certain factors seem to hold true no matter who you are. Friendly, informative, personal service is hugely important: supermarkets just don't have the time to chat with customers, let alone educate their staff on the finer points of their product ranges. A welcoming, interesting environment, a look which presents the store as an interesting destination, will also help draw custom and there are all sorts of looks available, from smart and chic to rustic and surprising. But towering above all these is the matter of stock. Independent food stores must, of course, be original in their stocking selections. They must offer goods unavailable in the multiples and they must satisfy the demands of their customers. Stock Check 2016 is an unrivalled resource of new and proven stocking ideas which will ensure your shelves are filled with the sort of interesting products which meet the demands of your customers and inspire them to tell their friends all about you. From soft cheeses to sausages, and from biscuits to breakfast foods, you'll find it all in this year's Stock Check.

ESSENTIAL STOCKING:  
**LE GRUYÈRE AOP**

*It's the distinctive taste which separates Gruyère AOP Classic  
and Gruyère AOP Reserve from the rest*

**I**f you pride yourself on offering a carefully-chosen selection of world-class cheese, no doubt you already stock Le Gruyère AOP, the classic hard cheese the Swiss have been making in the cantons of Fribourg, Vaud, Neuchatel, Jura and the Berne area for the last 900 years. But if it's solid turnover you look for in your cheese selection, you may be less interested in Le Gruyère AOP's tradition and well-founded reputation than in its

ability to make converts of new customers.

Try holding a Gruyère AOP promotion and put out on taste chunks of Gruyère AOP Classic and AOP Reserve. You'll be pleasantly surprised at how the creamy, floral tastes of the younger cheese and the deeper flavours and often crystalline textures of the longer-matured Reserve are received by customers young and old. The enthusiastic reactions of food-show visitors to this superb example of the cheesemaker's art have shown that it's the taste of Le Gruyère AOP which sells the cheese.

Customers whose interest in cheese runs deep and who like to know the product's story will be intrigued to learn that despite its worldwide reputation, this isn't a factory-produced cheese. Instead, Le Gruyère AOP is produced by 170 small producers, often employing only two or three people, who make the wheels of Le Gruyère AOP to very strict guidelines. While the flavour of the cheese will of course vary within limits according to whether the milk has come from cows which have been fed upon Alpine grass in summer or hay in the winter, Le Gruyère AOP is famed for its consistency.

Animal rennet is used and, allowing for the introduction of a small amount of necessary technology, the cheese is made in very much the same way as it has always been made in these parts.

It's important to understand that no corners are cut with the production of this entirely natural cheese; no silage is used and nor are any additives or preservatives. This is an artisanally made, tradition-rich cheese which just happens to possess an appeal which has proved near-universal.

Each wheel of Gruyère AOP begins life as the fresh, unpasteurised milk which is delivered twice daily from farms no more than 12 miles from dairy. This is just one of the list of carefully-considered guidelines which ensure reliability, just as the casein mark on each wheel (which carries the legend Le Gruyère AOP and the number of the dairy) is imprinted on each rind to ensure security and offer peace of mind for the retailer.

Once the milk is delivered to the dairy, it is tested for signs of contamination and a sample is then held for six months, ensuring that the finished product is entirely traceable. (Retailers wishing to know the exact provenance of their wheel of Le Gruyère AOP can discover which cheesemaker made their cheese at [www.gruyere.com](http://www.gruyere.com)). Once the

starter culture has been added to the milk and this has been agitated in heated copper vats, and the curds separated from the whey, the cheese is poured into moulds before the newly-made wheels are pressed. A smallish dairy might have produced seven wheels by the end of the day, which are then immersed in a saline solution before being racked on spruce boards to dry and then to begin the long process of maturation.

The affinering of Le Gruyère AOP takes place in man-made caves deep under a Swiss mountain, which were excavated especially to produce the correct temperature and humidity for the maturing of this special cheese. During its maturation, representatives of Le Gruyère AOP test the cheeses constantly, ensuring that the quality of the paste, the aroma and, of course, the taste have attained the high level of quality for the wheel to be stamped with the Le Gruyère AOP name. Cheese which does not meet these high standards is destroyed or turned into grated

cheese products. It's in everyone's interest, from the milk producer and cheesemaker to the affineur, to ensure that standards are met. Le Gruyère AOP operates a points system which pays producers according to the quality of their products.

It's not always appreciated what a versatile cheese Le Gruyère AOP is, and while using it to top a burger might seem sacrilegious to some, in fact it works as well used in this way as it toasts on bread. As you would expect, Gruyère AOP from Switzerland makes the perfect cheese fondue. Gruyère AOP offers retailers taste, tradition and versatility in one smartly-presented package, but it's worth repeating that it's the tastes of both the light and floral Gruyère AOP Classic and the deeper notes of Gruyère Reserve which make converts and bring you repeat sales of this extraordinary cheese. So why not put some out on taste today?

“ It's important to understand that no corners are cut with the production of this entirely natural cheese; no silage is used and nor are any additives or preservatives. This is an artisanally made, tradition-rich cheese which just happens to possess an appeal which has proved near-universal ”

# FARM SHOP & Deli SHOW

18-20 April 2016 NEC Birmingham

## FARM SHOP & DELI SHOW

The fastest growing food and trade event in the UK

**F**rom the 18th – 20th April 2016, Farm Shop & Deli Show will be opening its doors at Birmingham's NEC, alongside Food & Drink Expo, to thousands of key buyers from the specialist retail sector. Since its inception in 2011, Farm Shop & Deli Show has become the fastest growing food and drink trade event in the UK. This market-leading show sold out three months prior to opening in 2015, and is already 75% booked for 2016, with six months left to go. Situated alongside a number of other market leading trade shows, including Food & Drink Expo, Foodex and National Convenience Show, Farm Shop & Deli Show attracts decision makers countrywide, from farm shops, delicatessens, garden centres, restaurants, food halls, coffee shops, cafés, butchers and bakers, who will sample, taste and explore the offerings from over 600 suppliers.

Farm Shop & Deli Show will inform, invigorate and inspire you to ensure your business remains profitable and efficient. Our core range of exhibitors will be showcasing everything from dairy, chocolate, confectionery,

charcuterie, meat, olives, sauces, preserves, condiments and chutneys through to speciality drinks, hot beverages, biscuits and cakes, alongside machinery, packaging and equipment, knives, furniture and flooring. When you register for Farm Shop & Deli Show, your free visitor badge will allow you access to Food & Drink Expo, Foodex and National Convenience Show, conveniently located in adjoining halls at the NEC in Birmingham.

### GREAT NEW IDEAS AT FARM SHOP & DELI SHOW

The show will play host to Great New Ideas launched within the speciality retail market. Last year's winner was The Foraging Fox's Beetroot Ketchup company. The delicious ketchup was developed by former city worker Frankie Fox in response to a surplus of garden produce, which she cooked up and found that her two young children loved.

## FARM SHOP & Deli LIVE

### A HOTBED FOR DISCUSSION AND DEBATE

Farm Shop & Deli Live brings attendees face-to-face with those at the heart of the industry. With a diary packed full of seminars offering everything from tasting sessions and live panel debate to masterclasses and interviews, visitors will be able to hone their skills and learn new ones in a bid to help improve their businesses.

Once again, there will be a number of well-known industry connoisseurs on hand to offer their advice and experience of working in the artisan food and drink business. This year will also see the return of the hugely popular Dragons' Pantry, where daring entrepreneurs can pitch their new products and ideas to our panel of expert dragons.

### IT'S BACK – The Farm Shop & Deli Awards 2016

The Farm Shop & Deli Awards 2016, with founding partner Olives Et Al and sponsor Lakeland Computers, recognize excellence in the UK's independent retail market. They celebrate the highest levels of service, product knowledge, initiative, innovation and community involvement in this sector.

Chair of Judges for 2016 will be Nigel Barden, the celebrated broadcast food journalist. He will be joined by other key industry figures to judge all the entrants. Nigel says: "There are some very

focused, driven and talented food retailers in Britain, who deserve to be nourished and encouraged. It's marvellous that these awards can bring them to much wider attention. The 2015 Awards revealed some truly brilliant winners, many of whom source produce locally and it's great to see that there's a good spread of outstanding retailers in both urban and rural settings. The British food and drink offer has never been better, as richly illustrated by the Farm Shop & Deli Awards." For the first time in the history of the Farm Shop & Deli Awards, Category and Regional winners will be announced at the Farm Shop & Deli Show at the NEC Birmingham on Tuesday 19th April 2016. At the show the awards' coveted top prize, Retailer of the Year, will also be announced.

# GRUYÈRE AOP

[gruyere.com](http://gruyere.com)

Made in western Switzerland, Gruyère AOP has been produced in the same way since 1115AD, using raw milk from cows fed on grass in summer and hay in winter. The skilled cheesemakers use 400 litres of fresh milk to make a single 35kg Gruyère AOP wheel. It is the only cheese that has won the title of Best Cheese in the World at the World Cheese Awards four times, which just goes to show how much work and skill is needed

to create its unique and delicious flavour.

Gruyère AOP can be found with different maturities: the Classic is matured for a minimum of five months and has a delicate, nutty, creamy flavour. The Reserve is matured for a minimum of ten months and has a drier, more grainy mouthfeel, with a stronger flavour. The age brings a difference in taste but the recipe always stays the same.

# PIPERS CRISPS

[piperscrisps.com](http://piperscrisps.com)

During 2015 we were once again voted Britain's 'Best Brand' of savoury snack by specialist food retailers – that's three years in a row! We like to think this is not just about our award-winning flavours (we've won 23 Great Taste Golds since 2007), but also about our great customer service.

Since we started making crisps ten years ago, we've always put our customers first. We've grown our personal delivery service from 'one man and a

van' into a fleet operating out of three regional hubs. It's still personal though – our customers build a real rapport with 'their' driver.

For UK customers outside our personal delivery areas we provide an excellent courier service when they order directly from us. Or, if preferred, our crisps are also available through carefully selected regional wholesalers such as Cotswold Fayre, Suma Wholefoods, Hider Foods and The Cress Company.

With 18 innovative flavours in the range, you'd be forgiven for thinking that Seed & Bean had enough on their plate without keeping up with their top drawer ethical credentials. But this is not the case, as their superior standing on the Ethical Company Index attests.

Handmade in England, their selection ranges from Coconut & Raspberry to Pumpkin & Hemp, with Cornish Sea Salt and Lime Rich Milk Chocolate their best-selling options.

Not only is Seed & Bean Fairtrade-certified, but they make sure to source their cocoa beans from producers in need of support from the Dominican Republic, Ecuador, and the Sao Tome Islands of West Africa.

Retailers are well looked after too, with small case sizes and free POS kits and stands available.

# KNOW YOUR GRUYÈRE AOP

- Gruyère AOP is available in the UK in two types, AOP Classic and Gruyère AOP Reserve
- Gruyère AOP is produced with raw, unpasteurized milk
- Gruyère AOP is natural – no additives or GMOs are used
- Gruyère AOP is naturally gluten and lactose free
- Every wheel of Gruyère AOP must be aged five months before it can be sold. Some wheels are aged for up to 18 months
- Gruyère AOP originates in the pretty Swiss town of Gruyères
- A single wheel of Gruyère AOP weighs around 35kg

## BE CERTAIN YOU'RE BUYING REAL GRUYÈRE AOP:

Each wheel of Gruyère AOP carries important information on its rind, which guarantees the authenticity of the product and allows you to trace it back to its point of origin.

The Casein Mark and Date of Production guarantees the authenticity of your wheel of Gruyère AOP

**Dairy Number:** this allows buyers to trace the cheese to the the dairy which made it

**Heel Marking:** Each wheel is stamped with the words Le Gruyère AOP and offers assurance that this is real Gruyère AOP from Switzerland

## APPEARANCE

A wheel of Gruyère AOP has a yellowy-brown rind and hard texture, the paste being an ivory yellow in colour

## FLAVOUR

Flavour will vary depending on the age of the cheese. Gruyère AOP Classic (matured from six to nine months) has been described as creamy with floral notes while the AOP Reserve (matured for at least 14 months) offers deeper flavours, and a firmer, often crystalline texture
